Addis Ababa

SUMMARY

Enthusiasm for software engineering is demonstrated through a strong academic background and hands-on project experience. A commitment to leveraging technical skills for meaningful contributions is evident, alongside a passion for creating web-based solutions. Active participation in collaborative projects indicates a readiness to embrace challenges and drive innovation in a dynamic environment. A clear alignment with goals that prioritize impactful technology is embrace, fostering a desire to contribute to significant developments in the field.

KEY ACHIEVEMENTS

- Enhanced Web Traffic**
Increased web traffic by 30% in 6 months through site optimization.
- Team Leadership Success**
Led team of five in successful deployment of university portal.
- Optimized Load Time**
Reduced website load time by 2 seconds, improving user experience.
- Academic Excellence**
Completed three software development courses with 95% average score.

COURSES

Course Title

BLEN GEBRE

--BLU SOFTWARE ENGINEERING STUDENT

EDUCATION

Addis Ababa University

01/2023 - 12/2027

Bachelor of software engineering student

LANGUAGES

LANGUAGE **Advanced** ● ● ● ● ●

ADDITIONAL EXPERIENCE

project

Location

Website Developer

01/2025 - Present

Developed web applications using JavaScript and React frameworks.

Wrote clean, maintainable code following best practices for software development.

Participated in code reviews to ensure quality and adherence to standards.

- Developed REST APIs for mobile applications.
Maintained source control repositories such as Git, SVN, TFS for versioning purposes.
Analyzed code and corrected errors to optimize output.
Programmed applications and tools using object-oriented languages with goals of code abstraction, stability and reuse.

python

Addis Ababa

python trainer

06/2025 - 08/2025

juventus summer camp

- Developed engaging Python training materials for diverse learner groups.
Delivered hands-on Python workshops to enhance coding skills and knowledge.
Implemented interactive exercises to reinforce Python concepts and practical application.
Collaborated with colleagues to refine training methods and improve course offerings.
- Maintained up-to-date knowledge of Python programming trends to inform training practices.
Served as an instructor at community coding events designed for beginners in Python programming.
